# MK10B

Adhesive reflective UV LED Trap (Duo beam)

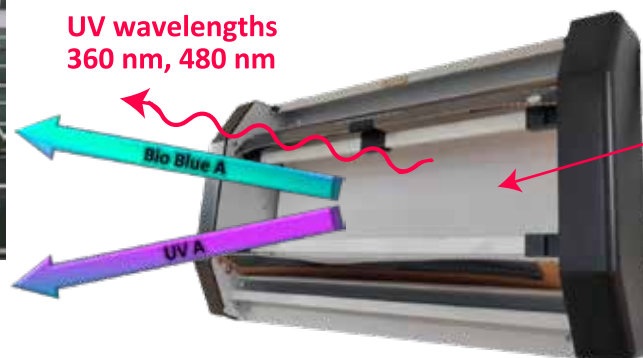

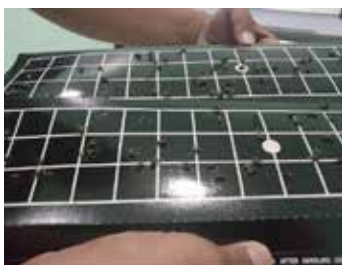

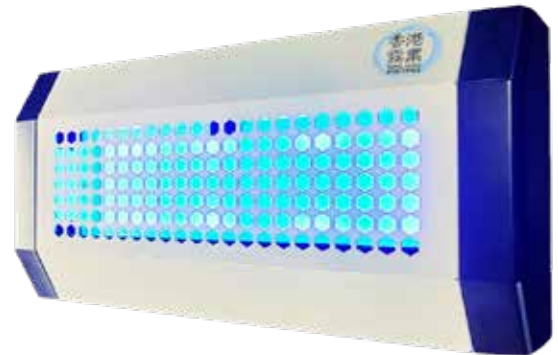

## Specification:

Dimension	20"L x 12"W x 3.5"H
Power consumption	120V 60Hz
Power	11W
Attracting Method	The board reflects the light in the two wavelengths (360 nm, 480 nm)
Serving area	50 – 80 square meters
Effective Operation	24 hrs (LEDs for 50000 hours)
Weight	4 lbs.
Power cable	NA
Fixing	On wall
Safety Level	IEC 60335-1, IEC 60335-2-59

## Features:

- No replacements of UV Tubes UV LED's last 50,000 hours
- Lowest energy consumption in the market
- >70% energy savings over conventional UV - fluorescent traps
- Patented reflective material technology
